Cyprus

Cradled amid continents

An island republic in the Eastern Mediterranean, Cyprus stands at the crossroads of Europe, Asia and Africa. Some 340 days of sunshine a year make for long, languid summers and mild winters. Landscapes are breathtaking, with mountains, vine-clad foothills, cedar forests and calm, azure seas. Meanwhile, the World Health Organisation rates Cyprus as one of the healthiest countries in the Mediterranean. A Mediterranean diet, modern healthcare and international schools ensure an excellent quality of life. Economic conditions are highly favourable too: a low tax regime, zero inheritance tax and exemptions for overseas interests and dividends make it the perfect choice for second home owners and tax exiles.

Easy access from Asia, Europe and Africa

Cyprus is within reach of Europe, Russia, the Middle East and North Africa. Around 40 airlines fly to the island's two international airports: The new terminal at Paphos airport was completed in Autumn 2008 while Larnaca's impressive expansion was completed in 2013. Both airports are well equipped to accommodate private jets and helicopters, while a new 1,100-berth marina close to Cap St Georges will provide ample space for super-yachts.

CAP ST GEORGES
— VILLAS —

Thanks to its west-facing position, Cap St Georges enjoys spectacular sunsets and panoramas — views maximised by the villas' design. The area's sea caves and pure waters make it one of the most idyllic stretches of the Mediterranean coast, perfect for swimming and diving.

The nearby islet of St George, the only island off Western Cyprus, is within easy swimming distance and attracts historians as well as romantics: Cleopatra is said to have prayed here.

Sensual elegance

"I've tried to create an atmosphere of 'sensual elegance', underpinned by world-class technology and service. And with private pools, gyms, cinemas, wine cellars, yoga terraces and jacuzzis, the inspiration revolves around unadulterated pleasure."

Georges Andraos Architect

A PRIVATE WORLD

Cap St Georges was born of a dream to create a community: a place of refuge for high achievers who sought an idyllic, private space for relaxing and entertaining. The concept is simple: an enclave of bespoke designer villas within paces of an unspoilt shore and a shimmering blue sea, with first-class security and concierge services on hand at all times. Here, the clamouring world is shut out at the gate, everyday stresses dissolve and families are free to spend time together; it's a place for Zen serenity or lavish parties, whatever suits the mood.

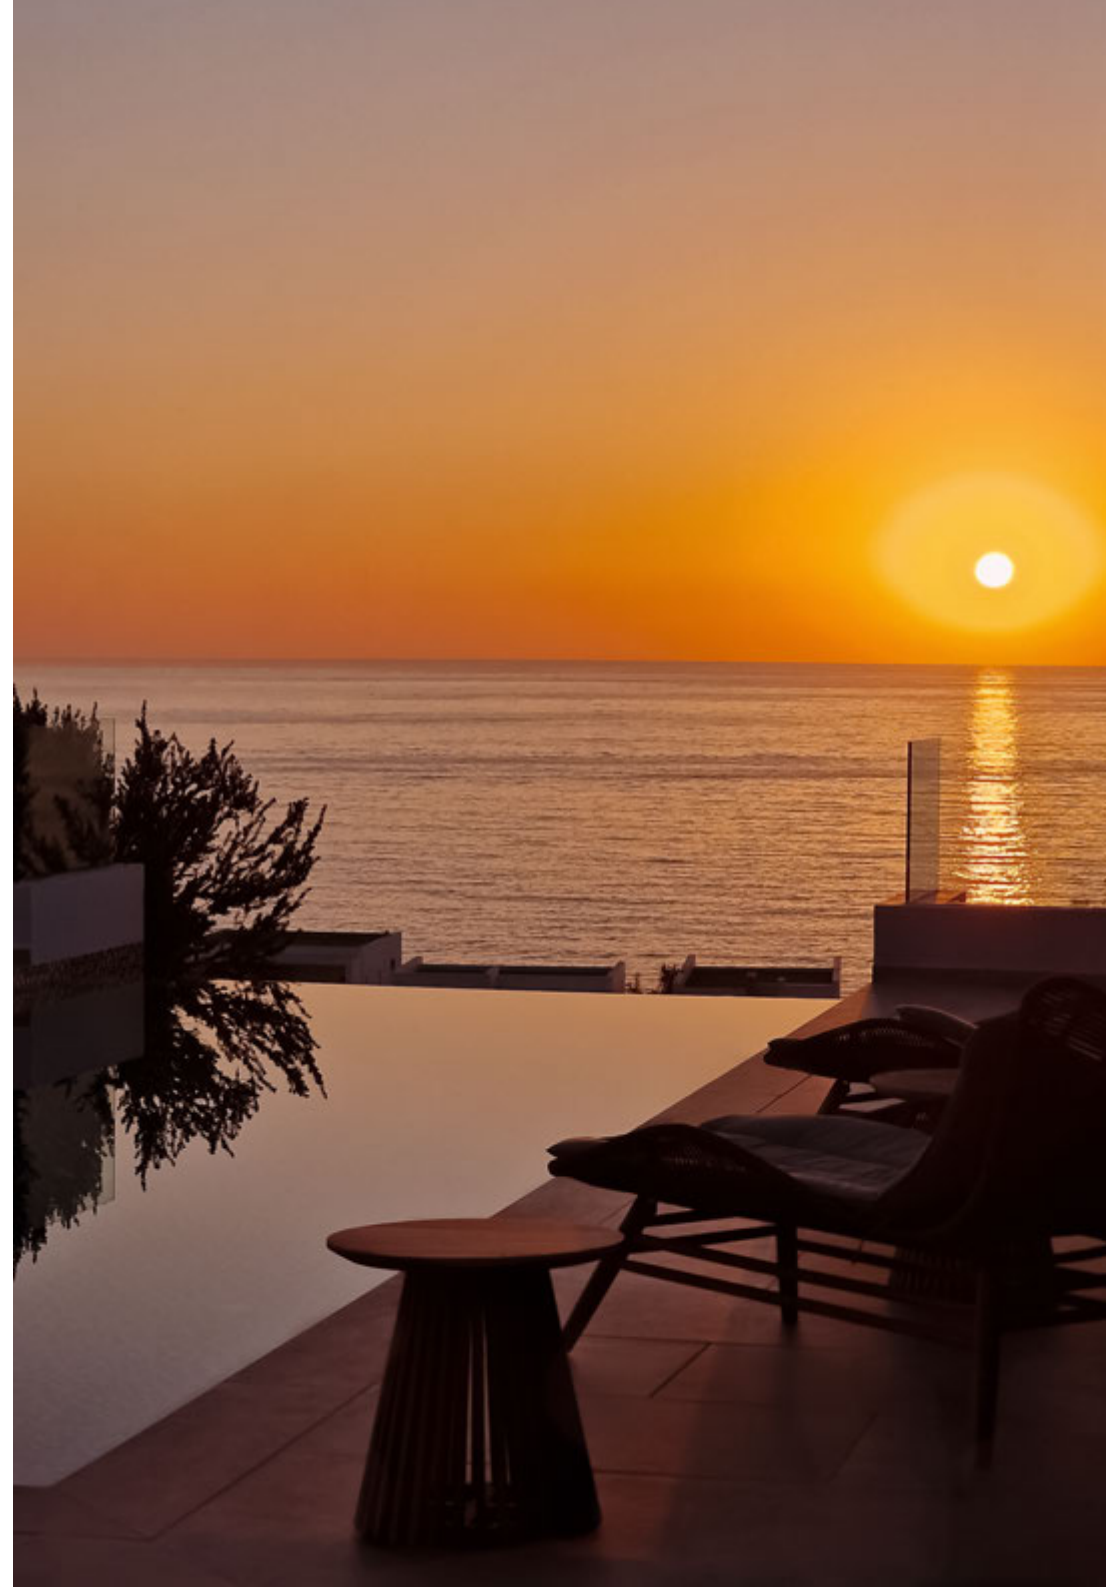

The Villas

The villas are contemporary in style and designed with timeless elegance. A gentle slope towards the sea affords every house a spectacular view.

Owners can 'live' the local culture and its history through rich and luxurious materials. From the lower-ground floors to the balconies, local colours and flavours have been incorporated: stone, wood, plants and mosaics.

The villas also play with light and shade, blurring the edges between inside and outside space and making opulent living areas feel as if they're part of the spectacular landscape. All villas are serviced by a reputable operator who will also run the rental of your villa on request.
